

# Working together

## HSBC and B & F Services

HSBC Bank is delighted to make available a range of services designed to help the day to day financial and business needs of B & F members.

### **Business banking**

A business current account is a basic requirement for every business. The current account is generally the first account opened by any new business, and gives you access to many other products and services essential to running a business.

### **Card processing**

Paying with plastic is fast becoming the preferred method of payment. As more of your customers offer you their credit, debit and charge cards, it's important to ensure that you are getting the most efficient service and value for your business.

If you choose to accept cards through HSBC, we will give you everything you need to start processing card transactions electronically. Whether you wish to accept cards in a face to face environment, or if you need to accept payment where the cardholder is not present ie, over the internet, telephone or by mail order, we can offer a solution.

### **Vehicle funding and management**

HSBC is offering attractive rates on Contract Hire for new vans and cars. Contract Hire is a tax efficient operating lease that gives you the use of the vehicle for a predetermined period of up to four years, at a fixed cost. This can also include routine servicing, maintenance and tyres.

### **Trade Services**

It's easy to become baffled by the range of issues that come with trading internationally. With 40 locally based International Business Managers across the UK, you're never too far away from an expert in International Trade to guide you through every stage.
